Insurance Disclosure

This is a disclosure of insurance coverage for aircraft renters, who operate owned or leased aircraft from Air Trek North.

1. **LIABILITY COVERAGE:** Air Trek North has \$1,000,000 each occurrence limited to \$100,000 each passenger in liability insurance to cover its aircraft and passengers. Liability coverage provides for bodily injury and property damage to a third party for which Air Trek North might be held liable. Air Trek North also provides you as an aircraft renter (pilot, student pilot, or pilot in command), with \$100,000 each occurrence in liability protection (covering bodily injury and property damage to a third party) for which you might be found liable. In the event of an aircraft accident or incident, the insurance coverage that Air Trek North's insurance policy provides you as the renter is limited to just \$100,000 each occurrence. With you and your passengers' best interests in mind, Air Trek North strongly recommends that you consider purchasing additional aircraft liability insurance as \$100,000 is a very low settlement limit. This type of personal aircraft renter's liability insurance is very affordable, and significantly reduces your personal financial risk.

2. **HULL COVERAGE:** Air Trek North provides you, as an authorized aircraft renter (pilot, student pilot or pilot in command) of aircraft owned or operated by Air Trek North, with hull insurance coverage that would cover the costs of any damage the aircraft may sustain while in your possession. Air Trek North carries hull insurance on all its rental aircraft however subject to a \$1000.00 deductible per accident or incident. You as the renter agree to pay the \$5000.00 deductible on any accident or incident you are involved in while in possession of, operating or responsible for an Air Trek North owned or leased aircraft. In the event the pilot in command of the aircraft is found to have been in violation of any municipal, state, or federal regulation, the aircraft insurance company may not cover damages. Clearly understand that the insurance company reserves the right to seek compensatory damages and or subrogation against the renter responsible.

3. SUMMARY:

- Air Trek North maintains hull and liability insurance coverage that protects the renter as well as the company.
- Renters have liability or hull insurance provided for them by Air Trek North yet, in the event of an accident or incident involving an aircraft in your possession, you will be liable to Air Trek North for the deductible of \$5000.00
- You are strongly advised to purchase additional liability insurance coverage often called Renters Insurance.
